

Ignorance (Everyone's
Alright)

Everyone's alright

Everyone's alright

Everyone's alright

Everyone's alright

The sunset looks so beautiful tonight

it's the same old sun as yesternight

I don't want to know about the night

Because every body is all right

Everyone's alright

Everyone's alright

Everyone's alright

Everyone's alright

People say there's a big thing going on

It's the biggest thing that's ever happened since the
dawn

People like to say they not alright

But they don't even realise that they're alright!

Everyone's alright

Everyone's alright

Everyone's alright

Everyone's alright

and looking backwards there was a magical place for
you and me

But looking forward there's a magicaler place for us to
seeeeeeeeeeeeeeeeeeee

Everyone's alright

Everyone's alright

Everyone's alright

Everyone's alright

Robot Apocalypse (I Want
My MP3)

I want my MP3!!

no more music as seen on TV

CD bins or radio scenes

the future is as convenient as can be for people like
you and like me

every day, more and more money

will go towards a rich and evil company

the times are changin now they say

spotify upgraded their audio quality

but nobody cares!!!! i want my mp3

dig it

o yeah

rock rock rock rock

I want my mp3

uniqueness and creativity are no longer needs

in a future where robots are our primary feeds

we'll all listen to the things we see

it doesn't matter how much we perceive

human race is running so fast it's gonna crash and
break a joint in its knee and then where will art be??!
and I want my mp3!!!

this is our new reality

you can get it for a monthly fee

who wants to get good money for streams?

who wants to be a part of the whole scheme?

gimme an F (blorp)

gimme an L (beep)

gimme an A (gleemp)

gimme a C (zzap)

but don't gimme no FLAC, cuz I want my MP3

please don't replace my passion with a screen

art is human & humans are beings

Overconsumption (I Can
Take a Bath in Orange
Juice if I Wanna [But I
Don't Wanna])

I get the feeling we're all tired

Because we don't try very hard

google has all the answers now

I purchased a disposable car

The miracle of gears has got me wondering how

Many more years we have left anyhow

It's a big big world out there i say

I'm seeing it all today

we'll all be fossil fuels one day

when my film hits the theatres,

will you go see it?

will you go see it?

or will you just sit around and wait until it comes out
on streaming?

I feel just like a speck of dust

floating in the milky way

and that speck of dust is covered in bright flashing
lights and flavored smoke

and war machines and movie screens and everything!
and everything!

World Hunger (Skeleton
Bone)

Don't you run around run around

Skeleton Bone

you know you can't do this alone

run around run around

Skeleton Bone

you know you've got nowhere to go

when you were born in the graveyard

you never were satisfied

all those mummies yeah they are not your kind

you've got to have yourself a wonderful time

Don't you run around run around

Skeleton Bone

you know you can't do this alone

run around run around

Skeleton Bone

you know you've got nowhere to go

you come to me and I'm a busy guy!

please go away, I can't be scaring the mimes

this is a real life situation you're in!

kinda better than the stuff you begin to start to

Dust Bowl (GSL Song)

plastic six pack rings and old-straws

lie at my feet, near the bus that i ride

and on the shores of the mighty body is the hardest
place of all time

for the ones who call this home

oh how could you let them hurt you, great salt lake?

you'll show them when you evaporate

we'll all be sorry then I'm sure

our air will be so much less than pure

we brought this on ourselves, no doubt

if anybody thinks of a solution, let me know what you
find out

oh how could you let us hurt you, great salt lake?

you'll show us when you evaporate

well I guess there's nothing left to say

but here's one thing I know

giving up is always the easiest way in a time when
everything is fallen apart

but it's never too late to try if you really care... and
you gotta start to go

oh don't let em hurt you, great salt lake!!

you don't have to evaporate

oh don't let em hurt you, great salt lake!!

you don't have to evaporate

Diet of Worms (Zombie
Apocalypse)

I have been on a steady diet of worms.

their boring flavor is not new to me.

throughout my whole life this has been firm,
as my way of life and my style of eat.
i take them straight right out of the ground.
and eat them up before they get old.
they make the strangest wriggling sounds.
but it's supposed to be that way, I was told.
I told my neighbor that he should try it.
Try to convert himself to wormhood.
but he'd heard all about my diet
and thought that it was no good.
the kids on my block all have forgotten
the way that they have been brought up.
don't they know that it is misbegotten?
to devour a dozen of donuts?
well people sometimes act really bad.
and they don't see things in my same way.
and that's something I find really sad.
my diet of worms will rise one day.
I have been on a steady diet of worms!!
it is the worms that keep me up all night
let's draw straws and pick sticks! let's all take turns!
they say to each other. it gives me such a fright.

but it's all cuz I've got a notion in my brain, you see
that notion has become a little family
that this is just the way that it has, got to be
if I ever go astray from this wormy repree(s)
then its the worms that will get me
Surveillance State (I
Once Knew A Girl)
I once knew a girl
Who looked a lot like you
She had your same hair
And your same tattoo
But you couldn't be that girl
Cause you've been super nice all afternoon
I once knew a girl
Who had a pretty smile
She said I wasn't smart
That I couldn't even rhyme
But you couldn't be that girl
Cause you are super nice to me all of the time
Say, what're you doing tomorrow night?
Oh, that's fine, I totally get it
I was hoping we could go out to get a bite

But if you need to see your boyfriend, don't sweat it!

Ba ba ba ba ba...

Alien Invasion (Jimmy!)

Well I been driving - down this lonely n dusty
rooooooooooad

Well I just been uh driving - down this lonely dusty
rooooooooooad

With my loser friend Jim E. Were just a little ways
from hooooooooome

In a classical car - we had to share the
rooooooooooad

I said in a Volkswagen Beetle now - were forced to
share the rooooooooooad

The bikers who pass us on the right - tell us which
way they're gonna goooooooooo

Well we kept on driving - til we reached old St.
Rooooooooooooose

I say we kept on driving - til we got to ol' St.
Rooooooooooooosa

When we stopped at the bright green traffic light, we
met some strangers who knew how to rock n
roooooooooo!!!!

well they took us way up into their spaceship high and
they said "we're from the planet TONG

And we've got a little concert back home tonight if you
guys wanna come along"

and I heard the most rockinest sounds in the galaxy
coming out of their stereo

And ol Jim gave me one enourmous grin and he said
"C'MON, Let's Check Out the Show"

n i say, Jimmy! Jimmy! Rock me all night long. Jimmy!
Jimmy! Rock me all night long. Well you're kind a
boring don't you know but tonight you can rock me oh
so strong!!!!!!!!!!!!

(backups: Jimmy! Jimmy! Rock me all night long / oh
so strong / all night long!)

well those green dudes sure knew how to party when
the band began to play,

I ain't never heard nothin ever just like it not even to
this day

but if I were to illustrate what Jimmy and I did see

It would turn you over in 0 g's and split your brain in 3
!!!!

but it goes a little somethin like this.

WAUGH!!!!

Ourselves (Nowhere
Tomorrow)

I've got a hand and it's holding your bag

It's got a finger and it's in my pocket

you've got a shoe and it's on the gas

pedal of your car and we're going

nooooooohereeee

toooooo morrow

nooooooohereeee

toooooomorrow

we're at the park on the brink of genius

but it's to dark and I lost my thesis

those stoner kids are all acting spleenless

I say that they have all got a one way ticket to

nooooooohereeee

toooooomorrow

nooooooohereeee

toooooomorrow

at the future site of disaster

we never act like it's all over

it's just another part of the adventure

cuz we're just sitting around together!!!
